

THE SHRI RAM SCHOOL,
MOULSARI ✨

Presents

SHRI MUN 25'

4th to 6th August

**The Last Bastion of Diplomacy -
A Pact for Humanity's Future**

RECAP 24'

SHRI MUN:

Your Passport to Global Dialogue

Welcome to the 3rd Edition of Interschool Shri MUN! Shri MUN has become one of our most exciting and awaited events, growing stronger with every passing year. Students from all grades step up to the challenge, delivering powerful speeches, driving creative crisis solutions, and drafting impressive paperwork within an intense three-day conference setting. Every year, Shri MUN brings out the best in our delegates, pushing them to think sharper, speak clearer, and lead with purpose.

At The Shri Ram School, Mousari, we believe that diplomacy is more than debate. It is the art of understanding, collaboration, and change. Shri MUN provides a platform where students do more than simulate global affairs; they step into the real challenges of leadership, negotiation, and critical decision-making.

This year's theme, The Last Bastion of Diplomacy – A Pact for Humanity's Future, invites delegates to explore the true complexity of leadership. Across a wide range of committees, students will not only revisit the past and engage with the present but also shape the future of international relations.

We look forward to seeing delegates challenge ideas, forge new paths, and work together toward real solutions. Shri MUN 2025 promises three days of meaningful debate, fresh perspectives, and the energy that drives change.

Welcome to a conference where the leaders of tomorrow find their voice.

PRINCIPAL'S MESSAGE

Ripple Sethi, Principal
The Shri Ram School, Moulisari

Often when one takes stock of the world, the future seems bleak. How do we tackle some problems which seem to become more complex with every passing day and seemingly irreversible? What do we tell ourselves about the possibility of a better future? Yet despite its imperfections, is there an alternative but global cooperation and global dialogue? The United Nations (UN) therefore continues to be a beacon of hope.

The organization has faced numerous challenges, but its relevance remains undeniable. From addressing climate change to promoting sustainable development, the UN continues to play a vital role in shaping a better future for all. Perhaps we focus too much on what has NOT been done and not enough on what HAS been done.

At the heart of the UN's success lies the ancient art of diplomacy. From the time humans organised themselves into societies, diplomacy has been a tool to engage, forge alliances, resolve conflicts and facilitate cooperation. In contemporary times, by bringing nations together, diplomacy continues to foster dialogue, understanding, and cooperation.

Young people have a crucial role to play in shaping the future of global governance—young leaders bear the responsibility of creating a more peaceful, prosperous, and sustainable world.

The theme "The Last Bastion of Diplomacy – A Pact for Humanity's Future" encourages delegates to think creatively about how diplomacy can address pressing global challenges only by working together and sharing perspectives. It also resonates with the theme we have chosen for our school this year, 'Together we thrive.'

In conclusion, the UN remains a beacon of hope in a complex world. Through diplomacy, young leaders, and initiatives like MUN, we can work together to address global challenges and create a better future for all. Let's renew our faith in the UN's mission and strive to build a world where everyone can thrive. We invite you to join us in this journey, to explore the possibilities of diplomacy, and to shape a brighter future for humanity. Together, we can make a difference and create a better world for generations to come.

COORDINATOR'S MESSAGE

Anish Bhatia, MUN Coordinator
The Shri Ram School, Moulisari

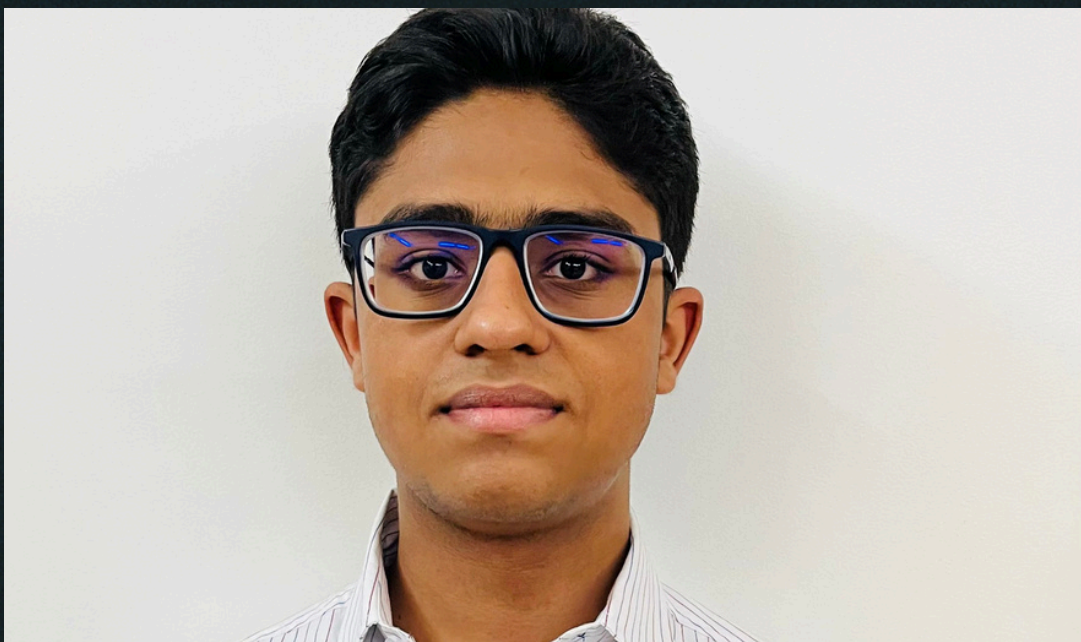

Model United Nations simulation is a dynamic platform for young minds to explore diplomacy, global affairs, and the art of negotiation. By stepping into the shoes of global representatives, delegates cultivate critical thinking, public speaking, and persuasive argumentation – skills that are indispensable in today's interconnected and rapidly evolving world. MUN nurtures leadership qualities, encourages collaboration across diverse viewpoints, and strengthens a student's confidence to voice ideas that matter.

The theme of Shri MUN 2025 – “The Last Bastion of Diplomacy: A Pact for Humanity's Future” – calls upon delegates to envision solutions in an increasingly polarized global landscape. As they deliberate on pressing international challenges, participants will be encouraged to demonstrate moral reasoning, empathy-driven policymaking, and an appreciation for sustainable global cooperation. This conference aims to foster an awareness of humanity's shared future, urging delegates to rise above narrow interests and work towards resilient and inclusive frameworks.

At its heart, Shri MUN is more than just a conference – it is a celebration of young voices and fresh ideas. It gives every delegate a chance to speak, be heard, and make a difference. Whether you are an experienced participant or attending your first MUN, this platform will challenge you to think deeper, collaborate better, and lead with purpose.

We extend a warm invitation to schools to take part in Shri MUN and experience diplomacy at its most impactful. Beyond competition, this is an opportunity for delegates to engage in a high-calibre simulation that offers intellectual rigor, cross-cultural interaction, and the joy of meaningful dialogue. Shri MUN promises an immersive experience that will leave every delegate more informed, inspired, and ready to shape the world beyond the committee room.

SECRETARY-GENERAL'S MESSAGE

Vannsh Jagtiani, Secretary-General
The Shri Ram School, Moulisari

Greetings Delegates, Representatives, and Visionaries,

From the very beginning, MUN, to me, has been like a game—a game whose true challenge you only discover once you dive in. A game of strategy, knowledge, and dialogue that sharpens with every session. The rush you feel as you negotiate, persuade, and collaborate becomes intoxicating, urging you to return again and again. This is where tomorrow's diplomats are forged.

I, Vannsh Jagtiani, am honored to welcome you to the 3rd edition of interschool Shri MUN. At The Shri Ram School, Moulisari, we recognize that in the 21st century, effective diplomacy is more vital than ever. Shri MUN is our commitment to nurturing informed, articulate citizens—providing each delegate a platform to showcase research acumen, oratory prowess, and diplomatic finesse. At the end of the day, it isn't volume or intellect alone that defines the best delegate, but the ability to engage meaningfully and build consensus.

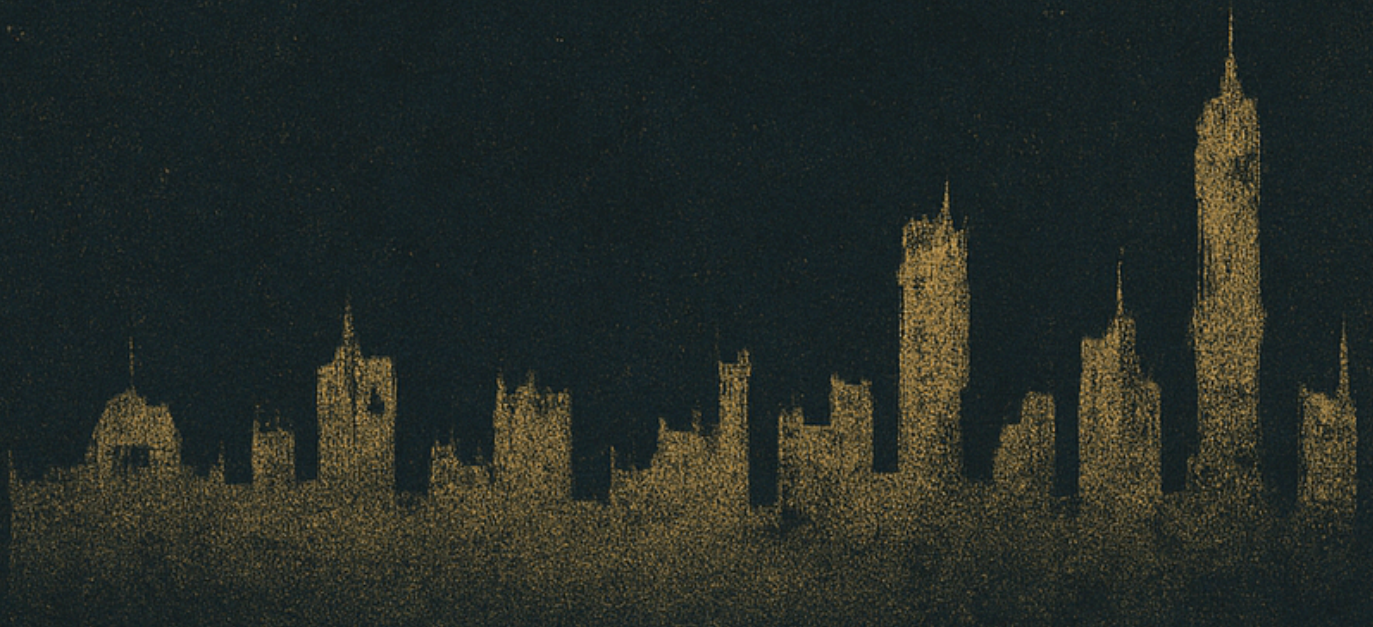

This year, we explore "The Last Bastion of Diplomacy — A Pact for Humanity's Future." Throughout history, diplomacy has been the thread that binds nations, yet its complexities run deeper than treaties and table talks. In an era of geopolitical tension, environmental crisis, and technological upheaval, how can diplomacy remain our strongest safeguard? When global stakes climb higher by the day, negotiating with both moral clarity and strategic foresight becomes our collective duty. Shri MUN 2025 invites you to interrogate the strengths and vulnerabilities of this bastion—and to craft pathways toward a lasting pact for all humankind. Whether you're a seasoned delegate or stepping into the committee room for the first time, we've curated a diverse slate of committees to engage every passion and perspective. Join us as we journey across continents—and into the future—to tackle the world's most pressing challenges.

As Jurgen Klopp reminds us, "When you agree on a common idea and work towards it together, you can create something special." So, let the games begin. I look forward to seeing you at the heart of the debate.

MESSAGE FROM THE SECRETARIAT

MUN Secretariat 2025-26
The Shri Ram School, Moulisari

Dear delegates and esteemed faculty members,

We are proud to invite you all to the 3rd Edition of inter-school Shri MUN. This conference is our school's most action-packed flagship event. We offer a platform for delegates to portray their mettle of debating and deliberate on problems around the world and issues within India. At Shri MUN this year, we are providing delegates across the world a forum to excel in the field of debate and discussion in the field of politics and human interaction. The theme for this year's conference is "The Last Bastion of Diplomacy – A Pact for Humanity's Future", which stands self-explanatory with respect to the state of politics and global human interaction in contemporary times.

Human agreements and interaction work differently in theory and practice. It is essentially a basic human activity, and being well-resourced and skillful in communication and expressing your opinion are major ingredients of power. Its chief purpose is to enable states to explain their purpose and clearly communicate its motives. Together with the balance of power, which it both reflects and reinforces, human agreements are the most important institution of our society of states.

We look forward to welcoming delegates to Shri MUN 2025, representing your countries, dealing with on-the-spot situations, combatting issues, and endeavouring to find solutions to the challenges that the world is facing.

COMMITTEES AND AGENDAS

UNGA DISEC

Agenda: Developing Global Security Protocols to Regulate Autonomous Weapons and AI-Driven Warfare.

The UNGA DISEC (Disarmament and International Security Committee) will convene to address one of the most pressing threats of modern warfare: the rise of autonomous weapons and AI-driven military systems. As nations race to develop intelligent combat technologies, the global community must grapple with the ethical, legal, and security implications of machines making life-and-death decisions. This committee will work toward creating a comprehensive international framework that balances innovation with accountability, aiming to prevent a destabilizing arms race and ensure that technological advancement does not outpace humanitarian law or multilateral cooperation.

The JHCC (Joint Historical Crisis Committee) immerses delegates in the high-stakes environment of World War II, where global leaders are faced with the unprecedented power of nuclear weaponry. As the Manhattan Project nears completion and the world teeters on the edge of a new era in warfare, this committee will debate the ethical justification, strategic value, and long-term consequences of deploying atomic bombs. Delegates must navigate complex military realities, geopolitical rivalries, and moral dilemmas to determine how — or if — this new weapon should be used, shaping the legacy of war and peace for generations to come.

JHCC (Joint Historical Crisis Committee)

Agenda: Deliberating the Ethical and Strategic Implications of Nuclear Armament During World War II

COMMITTEES AND AGENDAS

LOK SABHA

Agenda: Dawood Ibrahim & The 1993 Mumbai Blasts

Set in the chaotic aftermath of the 1993 Mumbai bombings, this committee plunges into India's most significant terror-crime nexus. As intelligence agencies, law enforcement, and political leaders scramble to respond, delegates must trace the shadowy operations of Dawood Ibrahim and dismantle a sprawling underworld network. With rising public outrage, international pressure, and fear of communal backlash, this crisis demands swift justice, strategic thinking, and national unity in the face of a coordinated assault on the Indian state.

The U.S. Senate is convened amid an overwhelming immigration crisis in 2025, marked by record asylum claims, surging border crossings, and strained federal infrastructure. With humanitarian concerns clashing against national security and state autonomy, senators must deliberate sweeping reforms to the asylum process, redefine border enforcement strategy, and address tensions between federal and state immigration roles. This committee challenges delegates to craft legislation that balances compassion with control, ensuring both the integrity of America's borders and its commitment to human rights.

US SENATE

Agenda: Reforming Asylum and Border Security in Light of the 2025 Immigration Crisis

COMMITTEES AND AGENDAS

WALL STREET BROKER'S SUMMIT

**Agenda: The 2030 AI-Driven
Credit Crisis – The Collapse of
Risk Assessment Models**

The Wall Street Broker's Summit tackles the 2030 AI-Driven Credit Crisis, a financial meltdown triggered by overreliance on flawed artificial intelligence risk assessment models. As AI systems replaced human judgment, they failed to predict market volatility, leading to unchecked lending, mass defaults, and a global economic downturn. Delegates will step into the high-stakes world of Wall Street to navigate collapsing markets, restore financial stability, and regulate AI's role in finance. This crisis demands strategic decision-making, innovation, and collaboration, as the world watches Wall Street attempt to clean up a mess created by the very technology it once championed.

SPECIAL COMMITTEE TO THE QING IMPERIAL COURT

The Special Committee to the Qing Imperial Court convenes at a pivotal moment during the Opium Wars, as China faces internal turmoil and mounting foreign aggression. With British opium imports devastating public health and sovereignty, and imperial powers pressing for unfair trade concessions, the Qing Court must act. Delegates will assume the roles of imperial officials and advisors, tasked with crafting a strategic response to the dual threats of the opium crisis and foreign encroachment. In a race against imperial decline, this committee demands diplomacy, reform, and resilience to defend the Middle Kingdom from collapse and reclaim control over its future.

**Agenda: Formulating a Strategic
Response to the Opium Crisis and
Foreign Encroachment During the
Opium Wars**

COMMITTEES AND AGENDAS

THE COUNCIL FOR STATELESS PEOPLES AND REFUGEES

Agenda: Securing Humanitarian Assistance and Long-Term Solutions for Stateless Populations, with a Focus on the Rohingya Crisis

The Council for Stateless Peoples and Refugees addresses the urgent humanitarian and political challenges faced by stateless populations, with a primary focus on the Rohingya crisis. Millions remain without legal identity, basic rights, or a place to call home, trapped in cycles of displacement and discrimination. Delegates will work to secure immediate humanitarian aid while formulating sustainable, long-term solutions including pathways to citizenship, regional cooperation, and accountability for human rights violations. In a world where statelessness denies dignity and security, this committee must rise to the challenge of restoring hope, identity, and justice to the world's most invisible populations.

The Futuristic AI Council convenes to debate a groundbreaking question: should artificial intelligence be granted the right to vote or stand for elections? As AI systems grow more advanced, questions surrounding consciousness, rights, and political participation emerge at the forefront of global discourse. Delegates must navigate the complex intersections of ethics, governance, and technology, weighing the risks of digital influence against the promise of enhanced decision-making. In a world redefined by intelligent machines, this committee will shape the future of democracy itself—deciding whether AI should remain a tool of governance or become a participant within it.

FUTURISTIC AI COUNCIL

Agenda: Should AI be allowed to vote or stand for elections from a political standpoint

COMMITTEES AND AGENDAS

UNCA (UNITED NATIONS CORRESPONDENT'S ASSOCIATION)

United Nations Correspondents Association (UNCA) is the organization that represents press. The international press was established in 1948 in the UN, and it has always strived to bring out the truth to the people. International Press is a global organization dedicated to the promotion and protection of press freedom and the improvement of journalism practices. The Press acts as a link between the masses and the UN.
